

# CH10x38 gPV 16A/1000V DC

## Specifications

|                                |  |
|--------------------------------|--|
| ETI Code                       | 002625081                              |
| Description                    | CH10x38 gPV 16A/1000V DC               |
| Class name                     | Fuse link                              |
| Rated current (A)              | 16                                     |
| Type                           | CH                                     |
| Size                           | CH10                                   |
| Characteristics                | gPV                                    |
| Rated DC voltage (V)           | 1000                                   |
| Dimensions                     | 10x38                                  |
| Breaking capacity DC (kA)      | 30                                     |
| Power dissipation (W)          | 2,6                                    |
| Standards                      | IEC 60269-6                            |
| Power dissipation (0,7xIn) (W) | 1,1                                    |
| Operating joule integral (A2s) | 147                                    |
| L/R (ms)                       | 2                                      |
| Prearcing joule integral (A2s) | 48                                     |
| Application                    | For protection of photovoltaic modules |
| efuse                          | 1                                      |
